

AVESA WELLNESS WATER SYSTEM

WITH CRYSTAL BOOST^(R) TECHNOLOGY

A product for people who know that vibrant health is a choice.

Could your current water supply be harming you?

If your **drinking water** consists mainly of tap water or non-alkaline filtered water, it just might be! The **chlorine** in tap water has shown to be a carcinogen, primarily attacking the bowels. But it isn't just the chlorine that's harmful in supposedly "safe" drinking water: **Thallium** and **Legionella** are also common ingredients, resulting in **hair loss** as well as **liver, kidney, and respiratory damage**.

Is Your Bottled Water Polluted?

The bottled water industry promotes an image of purity, but comprehensive testing by the Environmental Working Group reveals a surprising array of chemical contaminants in all ten bottled water brands analyzed. Analyses revealed a wide range of pollutants, including not only disinfection byproducts, but also common urban wastewater pollutants like caffeine and pharmaceuticals; heavy metals and minerals including arsenic and radioactive isotopes; fertilizer residue (nitrate and ammonia); and a broad range of other, industrial chemicals used as solvents, plasticizers, and propellants.

We all know that water is crucial to our well-being, but how can we hope to stay hydrated in a world filled with pollutants?

Introducing: The AVESA WELLNESS WATER SYSTEM with Crystal Boost[®] Technology!

"Proprietary Crystal Boost[®] technology spins the water and lifts its vibration...isn't it time that you lifted above fear and doubt into a life of health and balance?" ~Sri Ram Kaa

How about 5 gallons of guaranteed CLEAN water for less than 20 cents?

The 5-filter system includes one sediment pre-filter, two carbon ultra-conditioning filters, one ceramic alkalizing filter and the exclusive Crystal Boost[®] restructuring filter.

The Avesa Wellness water system is Simple and Easy to use!

Installation is easy, with two systems to choose from. The counter top version includes a faucet adapter that will quickly attach to ordinary kitchen faucets. This installation takes about **two minutes!**

The under sink model includes an adapter that screws onto your ½-inch water pipe and you will also receive a separate designer faucet for your counter top.

OVER THE COUNTER

UNDER THE COUNTER

“The low cost filter system means no electricity costs and clean water is available even when the lights are out!” ~Sri Ram Kaa

Why health-conscious people choose Alkaline water

Quite simply, as human beings, our body chemistry *thrives* when it's in an alkaline state. In fact, science has demonstrated that an alkaline state is necessary for health and vitality. This coveted state of being can be obtained by drinking alkaline water!

Key Alkaline Water Benefits:

- Superior Hydrator for your body
- A Powerful Detoxifier
- Promotes weight loss/weight normalization
- Improves flavor of cooked veggies
- Buffers the acidity of coffee & tea – improves the taste!
- Reduces disease potential
- Slows bone loss
- Slows aging
- Neutralizes acid in your bloodstream, less fatigue!
- Helps your body to absorb nutrients more effectively
- It tastes great!

Most competitive systems use electricity, actually electrocuting the water to make it “alkaline”. *(This imprints the water's etheric memory with an un-natural signal!)* The Avesa Wellness Water System uses volcanic minerals to return your water to its natural state and crystallizes the water to regain a healthy signature. Avesa Water is truly superior and less costly!

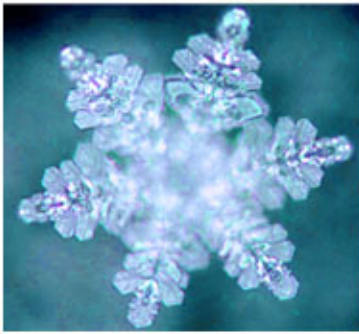

How does Structured Water benefit us?

Structured water is more 'bio-available' and it actually has anti-bacterial properties! When drinking ordinary water, the body must invest life force energy just to make the water compatible with cellular tissues. Structured water offers superior hydration as the availability to the tissues is nearly instantaneous! A hydrated body is healthier and does not age as fast as an acidic body.

For mere pennies a day, you can have alkaline-balanced, clean, delicious water for the rest of your life!

What does Crystal-Boost^(R) Technology do?

Water is an amazing creation; it retains impressions from its experiences. This means that water's journey through city pipes together with modern pollution actually puts unhelpful imprints upon the water. Thus, ordinary tap water, even when filtered, is 'dead' and carries the low vibrational frequency of those unhealthy impressions. Filters can clear pollutants, yet they do not necessarily restore the water's essential vitality. Water is meant to be enlivened by exposure to nature! Industrially-processed water retains the water's negative memories which can actually weaken your physical body.

Crystal-Boost^(R) is an exclusive technology that uses nature's wisdom to re-vitalize, balance and structure the water. Imagine sipping water from a high mountain stream! The Crystal Boost^(R) erases negative imprints and restores vital life-force to the water that you drink. This helps your vitality! The Crystal-Boost^(R) uses hand selected clear quartz crystals to activate the water, cleanse negative imprints, lift the vibrational frequency and restore its Divine Blueprint. That water is now "living" and healthy!

The quartz crystal design revitalizes and softens the water, and actually lifts the vibrational rate of the water higher than any bottled water available today. Dr. Masaru Emoto has demonstrated the healing effect that positive energy (prayers) has on water. Our quartz crystals offer a transcendent energy to the water, while simultaneously spinning the water in geometrical patterns of revitalization.

*So unique and surprisingly affordable,
you can place one at every sink in your home.*
